India's GCC Moment

Why global companies are accelerating India expansion

India is home to

1,700+ GCCs

employing 1.9M+ professionals - and growing at 11% annually

Talent at Scale

Access 5M+ STEM graduates annually at 60% lower cost

Time-Zone Advantage

12-hour overlap with US EST enables true follow-the-sun

Mature Ecosystem

World-class infra, legal framework & IP protection

Cost Efficiency

40–60% lower opex vs US, UK or Singapore offices

Gurugram is India's #1 GCC destination — home to 600+ global capability centres.

The Challenge

What we hear from every GCC entering a new market

> **“We need to be operational fast — but we don’t want to own the problem.”**

No CapEx Budget

Upfront fit-out costs run ₹2–5 Cr+ for 200 seats

Time is the Enemy

Traditional office setup takes 3–6 months minimum

Operations Distraction

FM, IT infra, vendors — none of this is your core job

Unknown Territory

Local market, landlords, compliance - steep learning curve

How We Work

A consulting-led approach to every workspace mandate

01

Discover

Deep-dive into your requirements, culture & growth plans

02

Evaluate

Shortlist options by location, cost, type & fit-for-purpose

03

Negotiate

Secure best-in-class terms on your behalf with full transparency

04

Set Up

End-to-end fit-out, IT infra & branding managed by our team

05

Operate

Ongoing FM so you focus purely on your core business

What We'd Love to Understand

Before we propose anything, we listen. Here's what we'll work through together on our first call:

1	**Location**	Any micromarket preference — Cyber City, Golf Course Road, Udyog Vihar, NH-48?
2	**Space Type**	Fully managed / operator-run, or are you open to furnished bare-shell with fit-out?
3	**Area**	What density are you planning — open plan (80 sq ft/seat) or collaborative (120–150)?
4	**Budget**	Monthly per-seat budget in mind, or a total opex envelope for the India office?
5	**Timeline**	When do you need to be operational? Is there a hard go-live date?
6	**Amenities**	Parking ratio, cafeteria, server room, prayer room, EV charging — any must-haves?
7	**Scalability**	Are you planning to grow beyond 250 in the next 12–24 months?

Let's Talk.

One 30-minute discovery call is all it takes for us to come back with a shortlist built around you.

We'll map options

3–5 curated properties matching your brief, budget & micromarket

We'll benchmark

Market rates & comparable deals so, you know what's fair

We'll set a plan

A clear go-live roadmap from today to Day 1 operations

Ready when you are - let's schedule our first call.

Thank You

We look forward to helping you build something great in India.
